

### LEARNING TO PRESENT AND EDUCATE YOUR CUSTOMERS

on the benefits of chemical additives and cleaners can unlock a reliable stream of unexpected revenue for your quick lube shop. From fuel injector cleaners to transmission fluid modifiers, these products give operators an opportunity to boost their bottom line.

That's why NOLN created its Guide to Additives and Cleaners. This handy resource helps operators uncover sales opportunities or turn unsold inventory sitting on your shelves into profit. With this guide, NOLN aims to help operators drive more sales—and strengthen their financial performance.

For a more complete list of this year's additives guide, visit [noln.net](https://noln.net). In the charts that follow, A = Additive, C = Cleaner.

bgprod.com

Your Partner Beyond Products™

PRODUCT NAME	TYPE	PURPOSE/DESCRIPTION OF CAPABILITIES
<b>BG EPR® Engine Performance Restoration®, PN 109</b>	<b>C</b>	Cleans micro passageways to maintain the critical hydraulic function of components. Removes carbon deposits. Restores compression. Improves overall power and engine efficiency. Excellent for maintenance of diesel and gasoline direct injection engines.
<b>BG Advanced Formula MOA®, PN 115</b>	<b>A</b>	Fortifies gasoline engine oil and protects engine components. Prevents sludge and varnish, keeps piston rings from sticking, reduces wear, and stabilizes oil viscosity. Allows safe extended oil change intervals. Low speed pre-ignition (LSPi) safe. Compatible with API SP and GM dexos1™ Gen 3 licensed engine oils.
<b>BG Platinum® 44K® Fuel System Cleaner, PN 208</b>	<b>C</b>	Cleans the entire fuel system. Reduces problems caused by deposit buildup, such as engine surge, misfire, stumble, hesitation, and power loss. Restores power output and engine performance. Improves drivability.
<b>BG CF5®, PN 203</b>	<b>A/C</b>	Keeps the entire fuel system clean and deposit free. Protects against the harmful effects of ethanol. Prevents fuel degradation and corrosion. Restores fuel economy and horsepower.
<b>BG Universal Cooling System Cleaner, PN 540</b>	<b>C</b>	Removes scale, oil, harsh mineral deposits, and tough residues in the coolant system. Helps solubilize and remove corrosion.
<b>BG Universal Super Cool®, PN 546</b>	<b>A</b>	Provides outstanding protection for all metals used in cooling systems, and restores additive balance and proper coolant pH. Compatible with all domestic, Asian, and European applications. Protects all classes of gasoline, diesel, and hybrid engines.
<b>BG Quick Clean for Transmissions, PN 106</b>	<b>C</b>	Removes accumulated deposits from the valve body, filter screen, and other automatic transmission, CVT, and wet clutch DCT and DSG components. Extends transmission and fluid life.
<b>BG ATC Plus®, PN 310</b>	<b>A</b>	Improves shifting characteristics of all types of automatic transmissions. Prevents deposit formation and thermal breakdown of fluid, protects against clutch wear, and keeps seals soft and pliable. Extends fluid life and life of the transmission.
<b>BG CVT Plus, PN 303</b>	<b>A</b>	Enhances the properties of new and used fluid in continuously variable transmissions, wet dual clutch transmissions, and direct-shift gearboxes. Prolongs fluid life, prevents deposit formation, and improves fluid oxidation stability and anti-wear characteristics. Compatible with all CVT, DCT, and DSG fluids.
<b>BG Platinum® Air Intake, Valve &amp; Combustion Chamber Cleaner, PN 261</b>	<b>C</b>	Removes heavy deposits from the backs of valves and in air intake systems of gasoline direct injection (GDI) and port fuel injection (PFI) engines. Restores fuel efficiency, engine performance, and power. Reduces harmful exhaust emissions.
<b>BG DOC®, PN 112</b>	<b>A</b>	Prevents acid corrosion and sludge formation, reduces friction and wear, and stabilizes viscosity. Compatible with all conventional and synthetic diesel engine oils.
<b>BG Diesel Fuel System Performance Restoration, PN PD15</b>	<b>C</b>	Keeps injectors and combustion chambers clean, reduces carbon packing of piston rings, and restores optimum fuel efficiency. Reduces cold start problems and mixes with all diesel fuels.
<b>BG DFC Plus® HP, PN PD14</b>	<b>A/C</b>	Keeps injectors clean, reduces exhaust smoke, prevents fuel gelling, corrects nozzle fouling, improves lubricity, and prevents corrosion, while also stabilizing the fuel. Mixes with all diesel fuels and optimizes cold weather performance.
<b>BG Diesel Thaw®, PN 256</b>	<b>C</b>	Quickly thaws gelled diesel fuel and restores fuel flow, stays fluid in very low temperatures, and prevents entrained water from freezing. Mixes with all diesel fuels.
<b>BG Universal MGC®, PN 328</b>	<b>A</b>	Protects both conventional and limited slip differentials, enhances lubricant film thickness, and improves thermal stability. Reduces component wear, chatter, and gearbox temperature.
<b>BG Frigi-Fresh®, PN 708</b>	<b>C</b>	Controls mold, mildew, fungi, and other odor-producing organisms in climate control systems. Works without costly manual cleaning of the system. Deodorizes automobile interior. EPA-registered virucide, bactericide, and fungicide.
<b>BG Battery Cleaner – Acid Detector, PN 485, and BG Battery Terminal Protectors, PN 987</b>	<b>C</b>	Cleans battery terminals, cables, and carriers, and detects the presence of acid by turning red in color. Protects battery terminals from corrosive buildup. Lengthens battery life.

# HOT SHOT'S SECRET

(800) 341-6516

hotshotsecret.com

ADDITIVES &  
CLEANERS GUIDE

PRODUCT NAME	TYPE	PURPOSE/DESCRIPTION OF CAPABILITIES
Diesel Injector Flush	C	A powerful, professional-grade cleaning solution designed for use with fuel system cleaning equipment. It quickly removes internal diesel injector deposits, restores injector performance, and improves combustion efficiency during a service.
Diesel Extreme	A/C	A deep-cleaning diesel additive that removes internal injector deposits, eliminates water, boosts cetane up to 7 points, and improves fuel lubricity. Ideal for periodic maintenance (6000 miles or 100 hours) to restore power and fuel system performance.
Everyday Diesel Treatment	A	A daily-use fuel additive formulated to increase cetane, improve combustion, lubricate injectors and pumps, and prevent fuel system corrosion. Recommended for every tank to maintain peak performance and efficiency.
EDT+ Winter Defense	A	A premium winter diesel additive combining the benefits of Everyday Diesel Treatment with advanced anti-gel protection. Prevents fuel gelling and icing while maintaining lubricity and cetane levels in cold weather.
Diesel Winter Rescue	A	An emergency treatment that relieves gelled diesel fuel and de-ices frozen fuel filters. A must-have for cold weather recovery to get diesel engines running again fast.
Premium DEFender	A/C	A premium diesel exhaust fluid (DEF) system cleaner and stabilizer that prevents crystallization and buildup in SCR systems. Keeps DEF fresh longer and ensures reliable emissions system performance.
LX4 Lubricity Extreme	A	An ultra-high lubricity additive that provides maximum wear protection for fuel pumps and injectors. Compatible with all diesel and gasoline fuels, it's ideal for use with low-lubricity ULSD and alternative fuels.
Gasoline Extreme	A/C	A concentrated fuel system cleaner formulated to remove carbon and varnish buildup from injectors, intake valves, and combustion chambers. Restores power, improves fuel economy, and reduces emissions.
Stiction Eliminator	A/C	A proven oil additive that removes varnish and stiction from rings, turbos, HEUI injectors while decreasing wear over oil alone. Safe and effective for all engines and oil types.
FR3 Friction Reducer	C	An advanced oil additive featuring nano carbon technology that reduces friction, decreases wear, and improves oil film strength. Increases horsepower, fuel economy, and extends oil and engine life.
Shift Restore	A/C	A transmission additive formulated to clean, lubricate, and restore worn or sticking solenoids, seals, and valves. Improves shifting performance and reduces transmission wear and slippage.
TBN Booster	A	A concentrated oil additive designed to restore Total Base Number (TBN) in diesel engines. Extends oil life and protects against acidic buildup between oil change intervals.
Racing Top Lube	A	A high-performance upper cylinder lubricant for race engines running low-lubricity fuels like methanol, ethanol, or race gas. Protects fuel systems and enhances combustion efficiency.
R82+ Race Diesel Additive	A	A competition-grade diesel additive formulated for maximum cetane, power, and lubricity under extreme race conditions. Improves cetane and combustion while providing injector protection.
Premium RV Gas Additive	A	A comprehensive fuel system treatment for RV gasoline engines that cleans injectors, stabilizes fuel, and protects against ethanol-related corrosion during storage and use.
Premium RV Diesel Additive	A	An all-in-one diesel treatment for RVs that boosts cetane, improves lubricity, cleans injectors, and stabilizes stored fuel for long-term protection and reliability.
RV Engine Protector	A/C	An oil treatment specifically formulated for RV engines to reduce friction, clean deposits, and extend engine life under heavy load and long-duration operation.
RV Trans Protector	A/C	A transmission additive engineered for RVs to improve shifting, reduce wear, and extend transmission life during towing and high-temperature operation.

# LUBEGARD BY INTERNATIONAL LUBRICANTS, INC.

(206) 762-5343 / (800) 333-5823

Lubegard.com

PRODUCT NAME	TYPE	PURPOSE/DESCRIPTION OF CAPABILITIES
42851 – Limited Slip Supplement	A	Concentrated friction modifier for all limited slip differentials. Eliminates chatter and noise. Extends clutch pack and equipment life. Replaces OEM friction modifiers.
63010 – Platinum Automatic Transmission Fluid Protectant	A	2-in-1 product that can be used as a premium ATF conditioner, or as an economical OEM ATF alternative. Stops shudder especially in 6 – 10 speed transmissions.
19610 – Instant Shudder Fixx	A	Instantly eliminates torque converter shudder, vibrations and noises in automatic transmissions. Not for use with Type F ATF, or in CVT and DCT transmissions.
60902 – Automatic Transmission Fluid Protectant	A	Extends fluid and component life by reducing heat, friction and wear. Frees sticking valves and governors. Softens hard shifts. Reduces slippage.
67010 – CVT Recharge & Protect	A	For use in all CVTs including hybrids. It reduces noise and enhances anti-shudder performance for smoother operation. Protects belt/chain, pulleys and other components from excessive wear
19001UNV – Kooler Kleen Transmission Line Flush	C	Uses proprietary mix of detergents to safely clean transmission lines without water to remove grease, dirt, grime and metal shavings.
95001 – Transmission Flush	C	For use in all automatic, manual, CVT and DCT transmissions. Safely removes harmful deposits preparing the transmission for new fluid. For use with or without a flush machine.
19300 – Aluminum Protectant	A	Reduces aluminum-on-aluminum and steel-on-aluminum wear by adding anti-wear protection which is not currently present in today's automatic transmission fluids. Perfect for commercial applications with high mileage and stop and go driving.
96030 – Kool-It Evaporator Foam Cleaner	C	Eliminates HVAC odors and improves air quality. Leaves a clean, fresh scent while maximizing cooling system efficiency. No equipment or drilling required. Safe for EVs.
96001 – Kool-It Radiator Treatment	A	Compatible with all types of coolant and antifreeze. Enhances heat transfer and reduces operating temperatures. Protects from electrolysis, corrosion and pitting. It prevents deposits and contamination which lead to overheating.
95020 – Kool-It Radiator Flush	C	Prepares system for new fluid by quickly and safely removing scum, oily residue, sediments, rust, deposits and other degradation products from the cooling system of any car or truck.
30901- Bio-Tech Engine Oil Protectant	A	Reduces friction and wear. Eliminates lifter and other objectionable noise on startup, especially in cold weather. Ensures smoother running engines. For use in gas and diesel engines.
30015 – Engine Oil Protectant for Turbocharged Engines	A	For use in all TGD engines. Reduces low-speed engine knock. Reduces wear on pistons, timing chains, and bearings. Extend oil life.
95030 – Engine Flush	C	For use in gas or diesel engines. Safely removes gum, varnish and deposits preparing the system for fresh oil. For use with or without a flush machine.
20404 – Power Steering Fluid Protectant	A	Eliminates power steering noises, whines, rack-and-pinion stiffness. Safe for all power steering systems including EPS.
95040 – Power Steering Flush	C	Safely removes deposits and impurities, preparing the system for new fluid. For use with or without a flush machine.
SEAL FIXX	A	Multi-purpose stop leak for engines, power steering systems, differentials, automatic, manual, CVT and DCT transmissions. Effective on all rubber seals and gaskets.
77012 – Fuel System Booster	C	Three-in-one product that provides total system clean-up, fuel lubricity additive, and fuel stabilizer. Ideal for GDI engines. Top Tier compliant. For gas and diesel engines.
30903 – Gear Fluid Supplement	A	Lowers temperature and extends fluid life. Improves all manual & synchromesh transmission shifting characteristics. Lowers friction on bearings and gears with high wiping stresses, especially hypoid gears.

# ITW PROFESSIONAL AUTOMOTIVE PRODUCTS / FULL THROTTLE™

(800) 255-8138

fullthrottleproducts.com

ADDITIVES &  
CLEANERS GUIDE

PRODUCT NAME	TYPE	PURPOSE/DESCRIPTION OF CAPABILITIES
<b>FT2001A Full Throttle™ Complete Fuel System Cleaner</b>	<b>C</b>	Full Throttle™ Complete Fuel System Cleaner is a highly concentrated pour-in-tank Polyetheramine (PEA) detergent fuel system cleaner that effectively cleans harmful deposits from fuel injectors, intake ports*, intake valves* and combustion chambers. <small>*Excludes GDI engines where the fuel injectors are positioned inside the combustion chamber. In GDI engines, the fuel and fuel system cleaner added to the tank does not pass through or contact the intake ports and intake valves. To clean the intake ports and intake valves, use part # FTPK20, Full Throttle GDI+ 2-Step Complete Fuel System Cleaning Service Kit, which contains an induction cleaner.</small>
<b>FTK21 Full Throttle™ 2-Step GDI+ Complete Fuel System Cleaning Kit</b>	<b>C</b>	The Full Throttle™ GDI+ 2-Step Complete Fuel System Cleaning Kit is a professional service that utilizes highly concentrated nitrogen-based Polyetheramine (PEA) and Tri-Blend detergents and a state-of-the-art patented induction intake valve cleaning technology that removes even the toughest of hard gum, sludge, carbon and varnish deposits.
<b>FTPKS2 Full Throttle™ Traditional 2-Step Fuel System Cleaning Kit</b>	<b>A/C</b>	Full Throttle™ Traditional 2-Step Fuel System Cleaning Kit helps restore performance by safely and aggressively cleaning gums, sludge, carbon and varnish deposit build-up from an engine's fuel system.
<b>FTPK30 Full Throttle™ 3-Step Complete Fuel System Cleaning Kit</b>	<b>C</b>	The Full Throttle™ 3-Step Complete Fuel System Cleaning Kit is a professional service that utilizes highly concentrated detergents and a state-of-the-art patented induction intake valve cleaning technology to remove the toughest of hard gum, sludge, carbon and varnish deposits.
<b>FTPO40 Full Throttle™ Oil System Cleaner</b>	<b>C</b>	Full Throttle™ Oil System Cleaner helps prevent contamination of new oil when used before performing an oil change, improves oil circulation and helps extend engine life by reducing wear-metal contaminants.
<b>FT40206 Full Throttle™ Engine Treatment &amp; High Mileage Enhancer</b>	<b>A</b>	Full Throttle™ Engine Treatment & High Mileage Enhancer improves the lubrication, protection and cleaning properties of engine oil. This premium oil additive combats engine wear, reduces friction and inhibits rust and corrosion.
<b>FT40203 Full Throttle™ Internal Engine Cleaner</b>	<b>C</b>	With longer oil change intervals and the advent of GDI engines using low-tension piston rings, harmful contaminants build in the oil, causing oil degradation that restricts proper oil flow and increases wear. Full Throttle™ Internal Engine Cleaner helps give new oil a fresh start by removing harmful contaminants to prevent oil contamination, improve oil circulation and reduce wear, providing a complete oil change in GDI engines or in any engine when the oil change interval has been over-extended.
<b>FT83401 Full Throttle™ High Mileage Oil Enhancer</b>	<b>A</b>	Full Throttle™ High Mileage Oil Enhancer is specifically formulated to make any conventional, synthetic-blend, full synthetic or super synthetic motor oil a high mileage oil, eliminating the need to stock multiple grades and viscosities of more expensive high mileage specialty oils. Full Throttle™ High Mileage Oil Enhancer is suitable for use in GDI, PFI, hybrid, and turbo-charged engines over 75,000 miles.
<b>FT10603A Full Throttle™ Continuously Variable Transmission Fluid</b>	<b>A</b>	Full Throttle™ Continuously Variable Transmission Fluid is a full synthetic, multi-vehicle, robust formulation that optimizes performance, inhibits corrosion and extends transmission life.
<b>FTPK60 Full Throttle™ 2-Step Automatic Transmission Fluid Kit</b>	<b>A/C</b>	Full Throttle™ 2-Step ATF Kit is formulated to completely clean and treat the vehicle's automatic transmission. The Transmission Exchange cleaner is designed help remove harmful oxidation, sludge, varnish and wear-metal deposits. The Transmission Treatment revitalizes seals and O-rings and helps prevent corrosion and foaming leading to smooth shifting and extended fluid effectiveness and life.
<b>FT80085 &amp; FT84 Full Throttle™ Multi-Vehicle Power Steering Fluid</b>	<b>A</b>	Our Multi-Vehicle Group II Power Steering Fluid meets OEM requirements for most vehicles. FT80085 - 11oz; FT84 - 1 gallon
<b>FTK80090 Full Throttle™ 2-Step Multi-Vehicle Power Steering Service Kit</b>	<b>A/C</b>	Full Throttle™ 2-Step Multi-Vehicle Power Steering Service Kit provides the vehicle with a complete clean and fill service, safely removing deposits that are trapped in the system. After cleaning the system with Full Throttle™ Power Steering Cleaner, refill the reservoir with Full Throttle™ Multi-Vehicle Power Steering Fluid.
<b>FT50100B &amp; FT50101 DOT 4 Motor Vehicle Brake Fluid</b>	<b>A</b>	Over time, brake fluid degrades and oxidizes, which can lead to sub-optimal brake performance and possible expensive repairs. Replacing used brake fluid with Full Throttle™ DOT 4 Brake Fluid, restores brake fluid to like-new conditions. Full Throttle™ DOT 4 Brake Fluid meets and exceeds the requirements of Federal Motor Vehicle Safety Standards (FMVSS) 116 DOT 3, SAE J1703 and ISO 4925. FT50100B - 1qt; FT50101 - 12oz"
<b>FTPK50 2-Step Cooling Kit</b>	<b>A/C</b>	Full Throttle™ 2-Step Cooling System Kit contains both a cleaner and conditioner/sealant to help the cooling system work at peak performance. Full Throttle™ Cooling System Cleaner quickly attacks scales, grime, grease, dirt and solder in the cooling system. The Sealant & Conditioner stops common radiator and coolant leaks in one step.
<b>FT30301 Limited Slip Friction Modifier</b>	<b>A</b>	Our Full Throttle Limited Slip Friction Modifier is a gear oil top treatment product specially formulated to promote smooth clutch engagement and lessen chatter. This product is designed to enhance the performance of modern vehicles and is effective for all Limited Slip and posi- traction applications.

# MIGHTY AUTO PARTS

(800) 829-3900

mightyautoparts.com

PRODUCT NAME	TYPE	PURPOSE/DESCRIPTION OF CAPABILITIES
A/C Refresher Kit CL120	C	Mighty VS7 A/C Refresher Kit cleans mold, mildew, and bacteria from the evaporator, then cleans and eliminates odors from the interior of a vehicle.
Battery Cleaner/Acid Detector MN112	C	Mighty VS7 Battery Cleaner and Acid Detector is designed to help protect battery terminals, clamps, and connectors. It removes corrosion from these areas and can also locate acid leaks.
Battery Protector/Corrosion Inhibitor MN113	C	Mighty VS7 Battery Terminal Protector is designed to protect vital battery components and also inhibit corrosion on battery terminals. This soft pliable formula flows into cracks and crevices for the ultimate protection.
Complete Engine Clean OL106	C	Mighty VS7 Engine Clean removes virtually all old oil and sludge deposits from the engine and promotes smoother performance and extended engine life. It is safe for all oil changes, including synthetics and semi-synthetics.
Coolant & Conditioner Kit CL108	A/C	Mighty VS7 Coolant two-step treatment is designed to clean and condition all cooling systems. The formulas are compatible with all coolants, including regular and extended-life antifreeze. Step one thoroughly cleans the cooling system, and step two lubricates the water pump and conditions the system.
Electric Screen Cleaner DL6310	C	Safe and effective for infotainment screens, digital dashboards, and instrument panel screens in vehicles. Will not scratch, and effective at removing oils and residues from constant contact with the screens.
Engine Oil Fortifier (EOF) OL120	A	Advanced oil fortifier additive enhancer for gasoline and diesel applications.
Engine Shield OL150	A	Mighty VS7 Engine Shield with advanced fluoro-ceramic technology is specially formulated to provide unsurpassed extreme protection of vital engine parts and components above and beyond synthetic, synthetic blend and conventional engine oils. Cermilon is a fluoro-ceramic polymer that treats porous areas in metal surfaces creating a fluoro-ceramic shield providing for extreme friction reduction.
Engine Shield OL155D	A	Mighty VS7 Engine Shield with advanced fluoro-ceramic technology is specially formulated to provide unsurpassed extreme protection of vital diesel engine parts and components above and beyond synthetic, synthetic blend and conventional engine oils. Cermilon is a fluoro-ceramic polymer that treats porous areas in metal surfaces creating a fluoro-ceramic shield providing for extreme friction reduction.
Frigid Fresh CL814	A/C	A/C vent odor eliminator and air purifier. Great for use when replacing cabin air filters.
Foaming Throttle Plate Cleaner FL110	C	Mighty VS7 Foaming Throttle Plate Cleaner is a special blend of solvents that quickly removes gums, resins, and varnish from both sides of the throttle plate to help correct rough idle and stalling problems. Unique foaming action penetrates hard-to-reach areas without scrubbing.
Fusion 2-Step Ultimate Fuel System Cleaning Service SB500	A/C	Mighty VS7 Complete Intake System Cleaning removes carbon buildup and cleans the upper engine and intake systems. Dual Tech Tank Additive removes fuel-related deposits. Ideal for GDI engines.
GDI Solution Kit SB600	A/C	Mighty VS7 GDI Solution Kit is designed to safely and effectively clean carbon and buildup in GDI fuel systems using cutting edge enhanced technology. Targets the intake valves, pistons, fuel injectors, and oil system. Addresses inherent problems and restores loss of power and drivability issues throughout the entire fuel system.
Glass Guard+ DL7007	C	Water repellant for windshields and glass.
NEW! High Mileage Oil Treatment OL107	A	High mileage additive designed to include newer lower viscosity motor oils.
Hood and Door Latch Lubricant MN111	C	Mighty VS7 Hood and Door Latch Lubricant penetrates deep into the tightest areas. As this product dries, it turns into a gel that keeps hood and door latches lubricated to ease opening and closing.
Power 2D 2-Step Engine Revitalizer SB400	A/C	Mighty VS7 Power 2D cleans the total fuel system, including intake valve seats, compression chambers, fuel injectors and fuel lines in two easy steps. Power 2D helps return compression to factory levels, increasing power and performance while reducing emissions and protecting against carbon buildup.
Supreme Fuel System Cleaner FL108	C	Mighty VS7 Supreme Fuel Additive reduces pings and knocks. Cleans fuel and valve intake deposits. Helps to reduce emissions.
Synthetic 2-Step Power Steering Clean & Protect System Kit SB105	A/C	Mighty VS7 Power Steering Clean & Protect System Kit is a two-step process to clean and protect the power steering system. Step one safely cleans the system and removes harmful deposits. This process can be done with or without a flushing machine. Step two protects and prolongs fluid life.
Synthetic 2-Step Synthetic Transmission Clean and Fluid Protectant Kit SB100	A/C	Mighty VS7 Synthetic Transmission Clean and Fluid Protectant Kit is a two-step process to clean and protect the transmission system. This unique synthetic technology is safe for internal clutch and seal surfaces. Step one cleans the system and can be used with or without exchange equipment. Step two protects internal transmission parts.
Synthetic Limited Slip Differential Supplement SB106	A	Mighty VS7 Limited Slip provides superior protection against metal-to-metal wear and resists thermal breakdown. It will extend the life of the gear oil and help eliminate rear end chatter.
Synthetic Power Steering Fluid PS111	C	Mighty VS7 Synthetic Universal Power Steering Fluid is truly universal. It is designed for use in all power steering services/exchanges requiring regular power steering fluid or specialty high-performance lubricating fluids, such as CHF+ applications.
Syntramax Dual Tech Fuel System Cleaner SB304	C	Mighty VS7 Syntramax Advanced Dual Tech features PEA and PIBA microencapsulation cleaning soft and hard carbon deposit improving performance in one application. Removes performance-robbing deposits.
Total Intake System Cleaner SB300	C	Mighty VS7 Total Intake Cleaners advanced GDI technology provides complete intake system cleaning by safely and effectively removing carbon buildup, cleaning a vehicle's upper engine and intake systems from the plenum to the catalytic converter. Application is quick and safe for all levels of technician.

## C.A.T. PRODUCTS/RUN-RITE

(570) 402-1154

run-rite.com

PRODUCT NAME	TYPE	PURPOSE/DESCRIPTION OF CAPABILITIES
1501 - 2 Step GDI Maintenance Kit	A/C	The two-step kit with Nano technology to clean and improve performance. Hybrid safe. Part of the GBB program.
1510 - Sledgehammer	A/C	A double espresso shot of rapid cleaning detergents that delivers results. Exceeds OEM standards.
1633 - TMK-Targeted Maintenance Kit	A/C	A unique three-step kit that targets each area with specific chemistry for performance. Hybrid safe.
1077 - 3 Step GDI/PFI Kit	A/C	The complete kit for GDI/PFI engines. Restores performance, fuel economy, and power.
7020 - 2 Step Fuel System Cleaning Kit	A/C	Quick kit for fuel and induction cleaning to restore performance.
3001 - Kleen-Rite Oil System Cleaner	C	Concentrated formula designed to quickly remove oil system deposits as it circulates through the engine, allowing these to be drained with used engine oil during the oil change.
3110 - Kleen-Rite Ultimate Engine Cleaning Detergent	C	Improves your oil change. Improves performance of VVT engines. Restores power and reduces oil consumption.
3075 - Run-Rite Premium Oil Stabilizer	A	Provides the extra protection your car needs. Helps eliminate dry starts. Seals worn cylinders to slow oil consumption. Cools and quiets engines and gear boxes.
3089 - Premium Synthetic Oil Stabilizer	A	Improves fuel economy, reduces engine wear, and extends engine life. Helps protect against low-speed pre-ignition by improving oil stability and reducing oil flash off. Formulated for all engine oils and viscosities, including all low-viscosity oils. Specially designed for GDI and turbo/supercharged engines. Protects oil film strength and lubricity. Helps increase fuel economy, and reduces friction and wear.
3400 - Forcefield Engine Protectant	A	Unique organic friction modifiers reduce wear and improve fuel mileage. No Teflon or solids.
3470 - Forcefield NRG with unique nano technology	A	Utilizes a unique nano formula to reduce wear and reduce oil consumption. Improves fuel economy, increases horsepower & torque. Reduces emissions.
6011 - Steer-Rite Power Steering Fluid	A	A premium power steering fluid designed to provide superior performance in extreme conditions.
6013 - Steer-Rite Power Steering Kits	A	Removes varnish and sludge deposits. Improves fluid circulation. Improves steering performance. Reduces wear and noise (whining). Conditions seals. Extends steering system life.
6055 - Steer-Rite Universal Synthetic Power Steering Fluid Kit	A/C	A full synthetic power steering fluid for all vehicle applications. Simplify inventory.
2020 - Shift-Rite Transmission Service Kit	A/C	Extends the life and reliability of your transmission. Improves performance. Maintains warranty requirements. Promotes a more complete drain of used ATF and contaminants. Improves ATF circulation. Reduces heat, the No. 1 enemy of a transmission. Improves shift quality. Reduces wear. Improves lubrication of all transmission parts. Cleans and conditions seals.
5050 - Cool-Rite Cooling System Kits	A/C	Rapidly removes rust and scale and mineral deposits. Dissolves and disperses sludge, silical gel, and oil residues. Conditions and restores coolant. Increases the RA. Neutralizes acids. Prevents corrosion. Extends coolant system life. Adds value and profit to cooling system services.
6210 - Battery Maintenance Kit	A/C	Makes battery service profitable. Cleans and protects against corrosion on battery and cables. Protects electrical components.
7797 - Professional Headlight Restoration Kit	A/C	Designed to quickly restore and protect headlight surfaces, renewing the appearance and performance of the headlight. No UV cure, no multiple sanding.
7611/12 - FAQ Service Solution	A/C	FAQ Cabin Air Cleaning Solution is the fast and easy way to clean and freshen the HVAC system. Ask us about our cabin air filter program to increase sales. FAQ produces no harmful byproducts for the technician or the environment. It is free from ozone-harming VOCs and is 100% biodegradable. It is classified as a "broad spectrum disinfectant-cleaner" that is non-corrosive, non-irritating to skin, and requires no special handling instructions on its label.

## SERVICE PRO

(800) 313-2463

service-pro.com

PRODUCT NAME	TYPE	PURPOSE/DESCRIPTION OF CAPABILITIES
2-Step Cooling System Re-Charge Kit	A/C	Cleans entire engine cooling system, water pump, and radiator, protecting against rust and scale. Eliminates overheating and can be used with all antifreeze/coolants, including long-life products.
2-Step Fuel Injection and Induction Tune-Up Kit	A/C	Formulated with powerful detergents for a total fuel system cleanup, including fuel injectors and intake runners, ports, and valves.
2-Step Synthetic Power Steering Fluid Tune-Up Kit	A/C	Removes old and contaminated fluid, and conditions power steering system parts. Reduces pump noise.
2-Step Transmission Tune-Up Kit	A/C	Removes dirt and contaminants from internal automatic transmission parts. Conditions seals, valves, and rings. Restores smooth shifting and helps reduce wear.
3-Step Fuel Injection and Air Intake Cleaner Kit	A/C	Cleans harmful deposits and carbon from fuel system for increased power and acceleration. Will improve idle and air flow to reduce emissions.
Detailing Products	C	Professional fabric cleaner, instant shine, and organic all-purpose cleaner.
Engine and Oil System Cleaners	A/C	Professional use petroleum-based formula to safely remove used oil deposit. Safe for engine seals and bearings.
Engine Cleaner and Degreaser	C	Removes tough grease, oil, and grime for car, truck, and marine engines. Spray on and rinse off with water.
Fuel Injector Cleaners	A/C	Thoroughly removes and cleans gum, carbon, dirt and resin deposits. Improves power, acceleration, idling, and quicker starting, and reduces emissions.
Mass Air Flow Sensor Cleaner	C	Reduces rough idle and hesitation. Safe for plastic and delicate equipment.
Non-Chlorinated Brake Cleaners	C	Professional grade brake cleaners that clean without disassembly. Also available in ultraquick dry, non-flammable, and California VOC formulas.
Premium Glass Cleaner	C	Heavy duty foaming glass cleaner that clings to surfaces and is ammonia-free. Safe on tinted windows.
Professional Carburetor Cleaner	C	Professional strength formula that removes gum, varnish, carbon, dirt buildup, and much more.
Synthetic High Mileage Treatment & Oil Booster	A	Helps revitalize seals and gaskets, GF-6 compliant, and safe for GFI, PFI, hybrid, and diesel engines.

## SOLID START/TRUE BRAND

(877) 290-3950

[solidstart.com](http://solidstart.com)

ADDITIVES &  
CLEANERS GUIDE

PRODUCT NAME	TYPE	PURPOSE/DESCRIPTION OF CAPABILITIES
Fuel Juels	A/C	The only time-released fuel treatment in the world. Restores fuel mileage, increases compression, fights ethanol problems, and removes water. Lasts up to 6,000 miles.
Upgrade Fuel System Cleaner	A/C	Concentrated PEA formula aggressively cleans harmful deposits from vital fuel system components, safely removes water, and fights the harmful effects of ethanol.
GDI Complete Clean 2-Step Kit	A/C	Requires no engine teardown. Protects GDI and PFI fuel systems against deposits, removes water and fights ethanol, cleans emissions control systems, induction systems, intake valves, injector tips, and combustion chambers.
MVP Protection Package	A/C	Fast. Easy. Profitable. Safely cleans deposit issues associated with today's deposit-sensitive engines, and protects the engine by reducing friction wear and heat stress.
Vital Car Care Kit	A/C	Professional-grade service kit protects vital vehicle systems and enhances long-term performance. Reduces friction and wear, optimizes fuel efficiency, and helps prevent costly repairs.
True Diesel MAX	A/C	Increases horsepower and torque through improved diesel fuel combustion; also cleans the fuel system, and fights moisture damage.
Diesel Restore 2-Step Kit	A/C	Removes deposits from diesel fuel injectors and combustion chambers. Helps improve fuel flow and spray patterns. Increases horsepower and torque. Reduces emissions, diesel knock, and exhaust smoke, and fights moisture damage.
DEF+ Diesel Kit	A/C	Removes crystalline deposits from DEF and SCR system and prevents new deposit formation. Boosts cetane rating of diesel fuel by up to 3 numbers (30 points).
GDI Emissions and Crankcase System Cleaner	C	Safely addresses issues associated with modern, deposit-sensitive engines; cleans the PCV emissions system, dissolves crankcase varnish, sludge and carbon deposits, and improves oil drain.
Engine Clean Plus+	C	As effective as a one-gallon engine clean service. Save money, save service bay time, and space. Deep cleans and removes harmful deposits, contaminants from the engine oil system.
EMG (Engine Maintenance Guard)	A/C	Full-synthetic leave-in formula. Engine Maintenance Guard actively removes harmful deposits from internal engine components, prevents future deposit formation, and shields against wear damage.
EMG Clean & Protect 3-Step Kit	A/C	Delivers comprehensive engine and fuel system maintenance and protection to ensure longterm reliability and peak performance.
Engine MAX	A	GF-7/API SQ compliant. Bonds to metal friction surfaces to reduce friction wear by 50%-90%. Increases compression, reduces oil consumption, improves performance, and extends engine life.
High Mileage Booster	A	GF-7/API SQ compliant formula fortifies all grades of engine oil with a concentrated blend of antioxidants, detergents, dispersants, and lubricants.
Premium Synthetic Power Steering Fluid Kit	A	Suitable for use in all power steering systems. Leave-in power steering treatment designed to reduce wear, foaming and squeal, and extend power steering system life.
Gear Oil Supplement	A	Reduces drive train power loss, friction, heat, and wear. Provides high temperature stability and prevents harmful deposits on synchros and gears. For use in all manual transmissions, transaxles and final drives that require gear oil.
TRUEVIEW Glass Water Repellent	A/C	Engineered with TrueRepel Technology to create a super-slick invisible shield on glass surfaces that repels rain, sleet, and snow on contact and aids in easy removal of ice, frost, salt, dirt, mud, and bugs.
TRUECOLD A/C Performance Booster	A/C	The only product of its kind. Boosts A/C performance — A/C gets colder faster. Cleans and protects the A/C system, extends compressor life and reduces fuel usage, also helps diagnose A/C system leaks.
A/C Refresh Kit	C	Cleans, deodorizes, and decontaminates the evaporator core while quickly and efficiently eliminating A/C odors caused by mold, mildew, bacteria, pets, smoke, and other contaminants.
True Brand Headlight Restoration	C	Patented formula renews hazy headlights to like-new clarity. Increases visibility by up to 50%. Advanced formula leaves the clearest, hardest lens coating available for superior chemical, water, heat, and abrasion resistance.

**PROVEN PRODUCTS. PROVEN PARTNERSHIPS. PROVEN PROFITS.**
